Testimonial;

"Thank you very much for your fabulous support during the process of selling my much loved 1880s historic cottage at Cobbitty. The house was in not such good order as I had tried for a number of years to move forward and restore and extend. My health has not been great and the task became too great so it was placed on the market. Eventually when the price I wanted was not reached in the marketing campaign Selling Houses Australia became involved and we renovated and sold immediately.

I thought it was a big ask to get you into this project but you gave, unflinchingly, of your time and expertise. Your advice meant that we had an immediate success after renovation, with no further advertising the house sold immediately to clients you had in your data base.

Thanks Tanya for your wonderful efforts,

Regards

Mrs Maree Kovac"
