Builders Own Quality Home on 1 Elevated Acre

A rare offering to purchase a builders quality, owner built home with high levels of workmanship and attention to detail with a north-facing aspect. Situated on approx. 1 elevated and flood free acre (approx. 4000 sq.m), in the sought-after and desirable location that is Grasmere.

Properties like this are in great demand, requiring buyers to act quickly as these house proud vendors provide a unique opportunity to the market.

The owner builder prides himself on the quality design and solid construction of the home which is not often found in today's housing market. For example; all foundations peered to shale including adjustable peers, double hung windows with opposing windows for cross ventilation, just to name a few extra inclusions.

This property also showcases a great floor plan, is practical in design including thermostatic control roof ventilation maximising both cooling and heating reducing on going power bills.
