Testimonial from the Vendors

My family and I would like to thank Tanya for her excellent effort towards the sale of our home. It was not an easy decision to pack up and sell our family home of 38 years. From the day we built the house we have celebrated many lifelong memories including raising our family there.

We thought that this chapter in our lives would be a stressful one but your calm, kind nature has made this a pleasant and enjoyable experience. You are friendly, easily approachable and reliable with your communication, even returning phone calls promptly when outside of hours. Your devotion was clearly evident as you made us feel like we were the most important clients you had. You never made us feel like we were wasting your time or that you had anywhere better to be. We found you to be very knowledgeable, it didn't matter what questions we asked as you always had the answer. We appreciate all your assistance throughout the process. You have helped us by making recommendations for our future home, your contact base has made it easier for us to transition and therefore has been a tremendous weight off our shoulders. We believe your attention to detail and your professionalism were the key to the success that we achieved.

Most importantly your genuine, understanding nature was recognised and appreciated.

We cannot thank you enough!
